

# Ascension

---

Words by Nicola Bleu

## VERSE 1

We took the jump to escape our past  
Bodies dripping wet but we're alive,  
Minds fragile and fingertips frozen  
But I know with you we will survive.  
It feels like we've been running for days  
Do you think we've reached the safe zone yet?  
Your eyes tell me we should stop for a while  
Weak to our knees cos we've not slept.

## PRE

Yet you've still not spoken a single word,  
Your cries are all I've heard.  
A deep sorrow lurking inside your soul,  
Haunting you beyond control.  
You're whispering save me.

## CHORUS

It's not like I can forget  
It's not like I can turn a blind eye,  
You know my mind can't reset  
And wave the memories goodbye.  
Take me to the heavens  
Make me feel clarity,  
Dive into depths of bliss  
Not face reality.  
Baby please distract me

And keep my attention  
So my mind can be free.  
I need this ascension.

## VERSE 2

Nobody's home in your nightmares,  
Just seeing shadows makes your heart race,  
Feel my pulse so that you know I'm here  
I take your hand so my heart you trace.  
It feels like we've been chasing a ghost  
Do you think we've lost our minds?  
Your eyes tell me that something's not right  
There's a part of me left behind.

## PRE

## CHORUS

## BRIDGE

Take me to a place of just beauty.  
I don't want my heart to be empty.  
Just get me out of my misery.  
Please fill the void before I bury.  
You're whispering save me.

## CHORUS

## Notes

- Custom syllable structure
- Extended pre-chorus, chorus and bridge.
