

Darkness

Words by Nicola Bleu

VERSE 1

Shapes define your features
They're not as they use to be,
The flowers have withered
And winter will soon be
Taking away your youthfulness.

PRE

With your cold feet
Lack of heartbeat
I'll embrace the snow
And cover you below.

CHORUS

(The darkness in your eyes
They tell a million lies
No longer will I hear them x2) x2
Just say those words. X2
Your voice ignites
No more tonight.
No longer will I hear them.

VERSE 2

Just as the sun rises
It's another day alone,
Our home unattended
Skin worn to the bone
Showing damage you left behind.

PRE

The cracked mirror
Anguish clearer
I'll embrace the snow
And cover you below.

CHORUS

VERSE 3

Shapes define your features
They're not as they use to be,
Your body is crumbling
For my eyes to see
I take no pleasure in your demise.

PRE

Your grave is made
Your torment slade
I'll embrace the snow...

CHORUS ALTERNATIVE

(Your cracked lips bleed the lies you said
Your bones perish the conflict is dead
Turn to dust the truth unfold
Your memory fades and I behold) x2
Just say those words. X2
Your voice ignites
No more tonight.
No longer will I hear them.

Notes

- Custom syllable structure
- 3rd verse and alternative chorus
